Elizabethtown Area Water Authority Well 6 & 7 Improvements
Mount Joy Township, Lancaster County
PENNVEST Planning Consistency Approval

CERTIFIED MAIL NO. 9589 0710 5270 3452 0154 90 - RETURN RECEIPT REQUESTED

Dear Mr. Weik:

The Elizabethtown Area Water Authority (EAWA) hereby provides notification of its intent to apply for funding from the PENNVEST program for the proposed Well 6 and 7 Improvements Project. The project includes replacement of the existing ion exchange treatment system for nitrate removal, Well Pump 6, the chlorine contact pipe, and the existing wastewater forcemain, as well as installation of corrosion control facilities and on-site emergency standby power. These improvements are needed to address aging infrastructure, capacity limitations, and treatment inconsistencies at the Well 6 and 7 station. Although the station is permitted for 500 gallons per minute (gpm), the existing equipment provides a design capacity of only 300 gpm, and Well Pump No. 6 has a lower capacity than Well Pump No. 7, limiting production when Well Pump No. 7 is out of service. As one of EAWA's critical production facilities, any prolonged outage at the station significantly impacts the Authority's ability to meet system demands and maintain reliable service to its customers. There is no proposed change in land use. Appropriate permits for this project have been applied for with DEP and the Lancaster County Conservation District. A USGS topographic location map that shows the approximate project boundary is enclosed.

The PENNVEST program requires the applicant to request a formal written review from the local Municipal Planning agency with respect to general land use planning. Therefore, EAWA requests that the Mount Joy

Township Planning Commission provide such letter to EAWA as soon as feasible. A sample response letter is enclosed. Please do not hesitate to contact us if you have any questions concerning the PENNVEST application.

Sincerely,

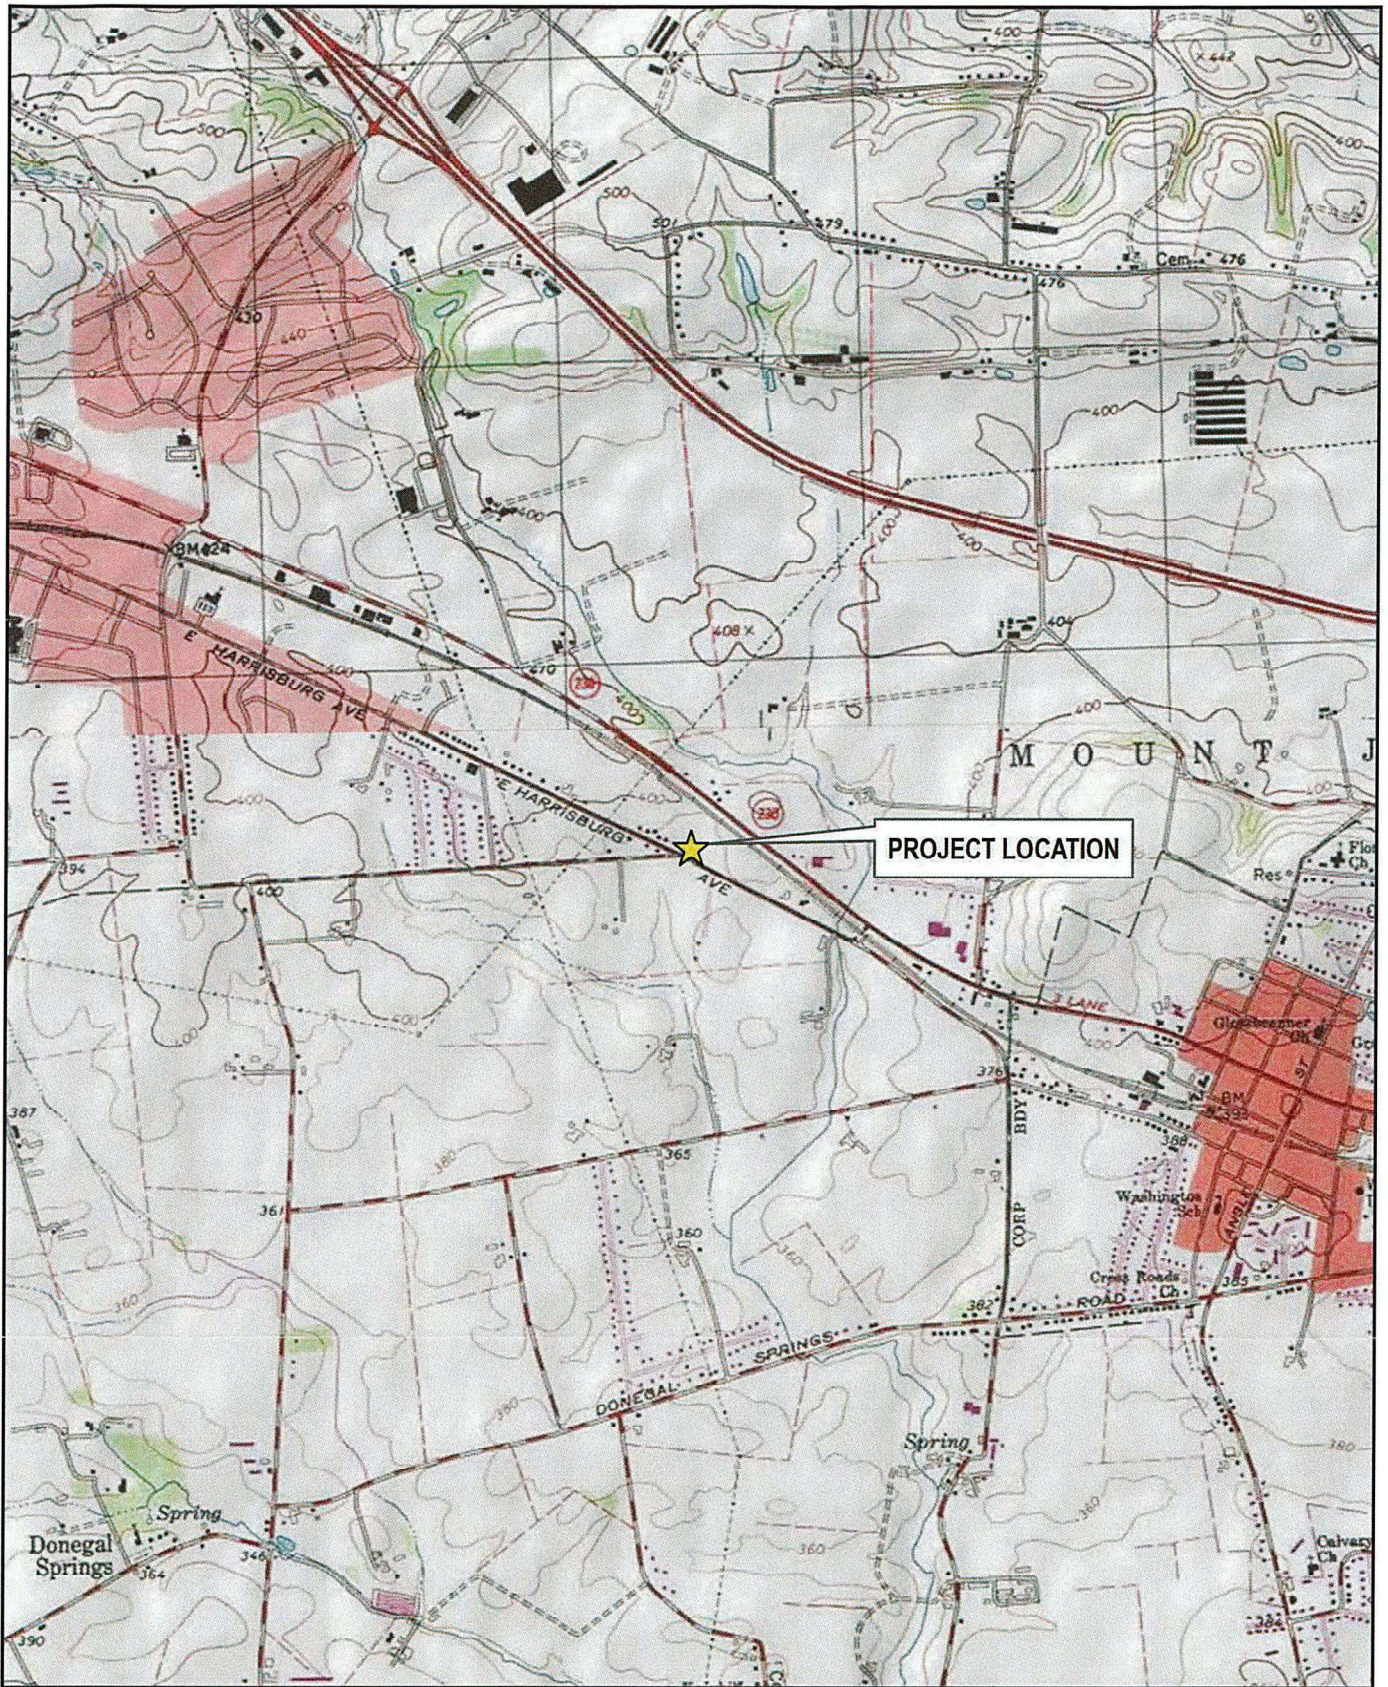

Michael Krieger, PE
Project Manager

Dear Sir or Madam:

Please be advised that the Mount Joy Township Planning Commission has reviewed the proposed Elizabethtown Area Water Authority Well 6 & 7 Improvements project as requested. We are pleased to be a participant in the planning of your infrastructure project.

We have determined that your project to upgrade your facilities to continue providing water service to the South Market Street service area of Elizabethtown Borough, the West Ridge Road area of West Donegal Township, and the Harrisburg Avenue service area and Campus Road service areas of Mount Joy Township is consistent with the Northwestern Lancaster County Comprehensive Plan's local land use and agricultural preservation policies.

This project is important, and we strongly encourage PENNVEST to provide appropriate funding. Should you have any questions, please feel free to call our office at 717-367-8917.

Sincerely,

Justin S. Evans, AICP
Assistant Zoning Officer
